Annex 18: World Bank – Worldwide Governance Indicators 1996-2008⁷⁸Country Data Report for Timor-Leste, 1996-2008⁷⁹Aggregate Indicator: Voice and Accountability⁸⁰Aggregate Indicator: Political Stability and Absence of Violence⁸¹

1

Aggregate Indicator: Government Effectiveness⁸²

⁷⁸ The WGI do not reflect the official views of the World Bank, its Executive Directors, or the countries they represent. The WGI are not used by the World Bank Group to allocate resources. (Source: <http://info.worldbank.org/governance/wgi/index.asp>)

⁷⁹ The Report displays the country's performance for all available years between 1996 and 2008 in six governance dimensions: i) Voice & Accountability, ii) Political Stability and Lack of Violence/Terrorism, iii) Government Effectiveness, iv) Regulatory Quality, v) Rule of Law, and vi) Control of Corruption. (Source: <http://info.worldbank.org/governance/wgi/index.asp>)

⁸⁰ **Voice and Accountability** measures the extent to which country's citizens are able to participate in selecting their government, as well as freedom of expression, freedom of association, and a free media.

⁸¹ **Political Stability and Absence of Violence/Terrorism** measures the perceptions of the likelihood that the government will be destabilized or overthrown by unconstitutional or violent means, including domestic violence and terrorism.

⁸² **Government Effectiveness** measures the quality of public services, the quality of the civil service and the degree of its independence from political pressures, the quality of policy formulation and implementation, and the credibility of the government's commitment to such policies.

Aggregate Indicator: Regulatory Quality⁸³

Aggregate Indicator: Rule of Law⁸⁴

Aggregate Indicator: Control of Corruption⁸⁵

Explanatory Note:

Percentile ranks indicate the percentage of countries worldwide that rate below the selected country. Higher values thus indicate better governance ratings. Percentile ranks have been adjusted to account for changes over time in the set of countries covered by the governance indicators. The dashed lines indicate the statistically-likely range of governance indicator [known as the confidence level]. For instance a percentile rank of 75% with the dashed lines at 60% to 85% has the following interpretation: an estimated 75% of the countries rate worse and an estimated 25% of the countries rate better than the country choice. However, at the 90% confidence level, only 60% of the countries rate worse, while only 15% of the countries rate better.

(Source: <http://info.worldbank.org/governance/wgi/index.asp>)

⁸³ **Regulatory Quality** measures the ability of the government to formulate and implement sound policies and regulations that permit and promote private sector development.

⁸⁴ **Rule of Law** measures the extent to which agents have confidence in and abide by the rules of society, in particular the quality of contract enforcement, the police, and the courts, as well as the likelihood of crime and violence.

⁸⁵ **Control of Corruption** measures the extent to which public power is exercised for private gain, including petty and grand forms of corruption, as well as “capture” of the state by elites and private interests.

⁸⁶ The Global Competitiveness Report is prepared by the World Economic Forum. It assesses the ability of countries to provide high levels of prosperity to their citizens. This in turn depends on how productively a country uses available resources. Therefore, the Global Competitiveness Index measures the set of institutions, policies, and factors that set the sustainable current and medium-term levels of economic prosperity (Source: <http://www.weforum.org/en/initiatives/gcp/Global%20Competitiveness%20Report/index.htm>)

Annex 21: [Revenue Watch Institute – Revenue Watch Index 2010](#)⁸⁷

⁸⁷ The Revenue Watch Index attempts to measure and compare the information governments disclose about the oil, gas and mining industries, including payments to those governments, contracts, regulations and related data.. To measure revenue transparency, the Revenue Watch Index evaluates the availability of information covering seven key areas of natural resource management: (1) Access to resources: the availability of data detailing contracts and licensing terms and procedures, as well as the existing legal and regulatory mechanisms related to the accessibility of information; (2) Generation of revenue: the availability of detailed information published by various government agencies on production and payments, as well as an assessment of its accessibility and frequency; (3) Institutional setting: the rules, roles and responsibilities of the main actors involved in the management of revenue generation, as well as the presence of internal controls and other checks; (4) State-owned companies: the availability of information regarding the governance structures of state-owned entities and the reporting practices related to their activities; (5) Natural resource funds: the rules governing the operation of funds and their reporting practices; (6) Sub-national transfers: the laws that regulate revenue sharing among different levels of government and the disclosure of information about revenue sharing; (7) Extractive Industry Transparency Initiative (EITI): the extent to which member countries have fulfilled EITI criteria (i.e. publication of EITI reports, independent payment audits and reconciliations, and information about payments and revenue from state-owned companies). Annex 20: Media Sustainability Index 2008: The Development of Sustainable Independent Media in Timor-Leste⁸⁸

Media

- **Number of active print outlets, radio stations, television stations:** Print: 4 newspapers; Radio: 21 (one public broadcaster and at least 20 community stations); Television stations: 1 (*CIA World Factbook, 2006, USAID Timor-Leste Media Assessment*)
- **Newspaper circulation statistics:** N/A
- **Broadcast ratings:** TVTL is the only broadcaster in the country.
- **News agencies:** None.
- **Annual advertising revenue in media sector:** N/A
- **Internet usage:** 1,200 (2006 estimate, *CIA World Factbook*)

Unsustainable, Anti-Free Press (0-1): Country does not meet or only minimally meets objectives. Government and laws actively hinder free media development, professionalism is low, and media-industry activity is minimal.

Unsustainable Mixed System (1-2): Country minimally meets objectives, with segments of the legal system and government opposed to a free media system. Evident progress in free-press advocacy, increased professionalism, and new media businesses may be too recent to judge sustainability.

Near Sustainability (2-3): Country has progressed in meeting multiple objectives, with legal norms, professionalism, and the business environment supportive of independent media. Advances have survived changes in government and have been codified in law and practice. However, more time may be needed to ensure that change is enduring and that increased professionalism and the media business environment are sustainable.

Sustainable (3-4): Country has media that are considered generally professional, free, and sustainable, or to be approaching these objectives. Systems supporting independent media have survived multiple governments, economic fluctuations, and changes in public opinion or social conventions.

Annex 22: Transparency International: Corruption Perceptions Index⁸⁹

Transparency International published an annual Corruption Perceptions Index (CPI) table that shows a country's ranking and score, the number of surveys used to determine the score, and the confidence range of the scoring.

The rank shows how one country compares to others included in the index. The CPI score indicates the perceived level of public-sector corruption in a country/territory. The following table shows the ranking for Timor-Leste from 2006 (the first year data were available) to 2009.

Timor-Leste Rankings:

2009	146	180	2.2
2008	145	180	2.2
2007	123	179	2.6
2006	111	163	2.6

L

LAW

The word law can be used with three different meanings, according to the intended scope. In the broadest sense, law is every legal rule, written or not, and covers the habits and all rules formally produced by the State. In a broad sense, law is the written legal rule, excluding legal habit. *In a strict sense, it means the normative act by excellence, issued from the National Parliament.*

LAW-MAKING

Science that studies the ways of designing and writing normative acts. In colloquial terms, law-making is the art of drafting laws well, in the sense that it consubstantiates a set of rules – law-making rules – the purpose of which is to contribute to a good drafting of laws.

LEGAL PROCEDURES

Set of legal requirements for starting a process.

LEGISLATION

Set of legal precepts regulating a certain matter.

LEGISLATIVE ACT

Manifestation of the will with strength of law and meant to produce law effects. It is one of the three sovereign powers of the State, responsible for the drafting of laws.

LEGISLATIVE COMPETENCE

Legal capacity for drafting laws, decree-laws, regulations and decrees.

LEGISLATIVE POWER

Power to legislate, create and sanction laws. The goal is to draft law rules with general or individual scope that are applied to all society, in view of satisfying the needs of the pressure groups; public administration; society. The legislative power elementary functions include that of overseeing the executive power and voting on budget laws.

M

N

NATIONAL PARLIAMENT

Assembly of representatives elected by the citizens in democratic regimes, normally holding legislative power.

O

ORGANIC LAW

Law on the organization and operation of the Government and respective Ministries. It covers the general dispositions and sets up the main functions and actuation instruments.

P

PUBLIC ADMINISTRATION

In organic or subjective sense, Public Administration is the set of State bodies, services and agents, as well as the further public legal persons, which ensures the satisfying of various collective needs, such as security, culture, health and the wellbeing of the populations. A person employed by Public Administration is called a civil servant. It can also be defined objectively as the concrete and immediate activity that States develop for ensuring collective interests, and subjectively as the set of legal bodies and persons to which the Law attributes the exercise of the administrative function of the State. Under the operational aspect, Public Administration is the perennial and systematic, legal and

		technical development of the services belonging to the State, benefiting the whole.
	PROMULGATION	Internal legal act by which the President of the Republic attests the existence of a duly ratified law, Decree-Law, treaty, etc., and order its execution within the territory. It is important to highlight the difference, in practical terms, between the effects of ratification and those of promulgation. If a State ratifies a treaty but does not promulgate it (and if its constitutional law requires promulgation), the conventional text is mandatory in the international sphere but not in the internal one. In this case, the State in question may be asked by other Contracting Parts to fulfill some of its conventional obligations, but one of its internal bodies may refuse to do so because of lack of promulgation. The faulty State then incurs in a situation of international accountability.
	PROJECT OF LAW	Text presented by the Deputies or Parliamentary Group to the Parliament, so that the latter can pronounce on it.
	PROPOSAL OF LAW	Idem to Draft Law
R	RATIFICATION	Confirmation, authentication of an act or commitment: ratify a Treaty.
	REPEAL	Removing validity through a different rule. The repealed rule leaves the system, interrupting its force. The rule ceases to be valid, to belong to the legal ordering, and to have special relevance in dogmatic terms.
	REVALIDATION	Reposition in force of a previously revoked law (or legal precept).
S	STATE	Institution organized politically, socially and legally, occupying a defined territory, normally where the maximum law is a written Constitution, and rules by a Government whose sovereignty is acknowledged both internally and internationally. A sovereign State is characterized by the saying "One government, one people, one territory".
	STATE GENERAL BUDGET	Planning instrument that expresses Government Programs monetarily, in order for a financial exercise, discriminating the objectives and goals to be achieved by the Public Administration.
T		-
U	UNCONSTITUTIONALITY	Contrariety of the law or normative act (resolution, decrees) regarding the Constitution. This incompatibility can be formal (lack of observance of the necessary rules for the process of legislative drafting or edition) and / or material (concerning the very content of the law or the normative act, and its conformity with the constitutional principles and rules).
